

Brick and Concrete

The earlier you remove graffiti after it occurs; the easier it is to remove. Graffiti on the back of painted road signs is removed easily using the **SoSafe BLUE LABEL Graffiti Remover** for non-painted surfaces.

1. Read safety precautions!
 2. Surface must be clean and DRY (blue label does not work on wet surfaces).
 3. Test an in conspicuous part of surface to test for product reaction.
 4. Wipe over graffiti with nylon scourer.
 5. **Apply product undiluted to graffiti.**
 6. **Allow at least 1 minute for product to penetrate graffiti.**
 7. **Scrub graffiti with scourer and then wipe residue off with paper towel.**
 8. Repeat steps 5 to 7 (as required).
 9. Rinse / wipe all treated areas with water to remove graffiti remover (this will deactivate the product).
- (RECOMMENDED) Apply SoSafe Safety Shield to protect against future graffiti.

The **Blue** So Safe kit is suitable for removing graffiti from unpainted brick, concrete and unpainted metal.

Safety Equipment MUST be used

Safety Eye Protection

Chemical Resistant Gloves
